Intro

CoonVi Token strives to be passionate stewards of the crypto space.

Through philanthropy, P2E gaming and NFT technology we'll highlight oceanic awareness and fuel innovation.

Ultimately, our mission is to cultivate a fun, transparent and prosperous platform inspiring both current and future generations of investors.

LEGALITIES

LEGALITIES

We, at CoonVi Token, would like to thank you for taking the time to research Our project and would like to inform Our readers that this white paper is not to be taken as an attempt to influence any of its readers to invest in any cryptocurrencies, including \$Coon itself. We produced this white paper in order to provide you with information about this project only.

Any possible investments in cryptocurrencies should be considered risky due to the immense volatility traditionally seen in most cryptocurrencies. Should you choose to invest in \$Coon, you agree to accept full responsibility for your own investment, acknowledging that crypto is highly volatile and that price action cannot be determined by the team. You also agree that the team is not in any way responsible for your own investment

By perusing this white paper, you acknowledge and accept all of the above.

- **Smart Contract**
- **Develop NFTS**
- **P2E Game DEV**
- **Crypto Education**
- **Form Company**
- **KYC**
- **Inter-Fi Audit**
- **Liquidity pool**
- **Launch Token**

PHASE 2

- **Launch Dapp**
- **Staking Platform**
- **NFT Sale**
- **LaunchYoga**
- **Launch Sound Bath**
- **CMC/CGListing**
- **Expand P2E DEV**
- **CEXListings**
- **Certik Audit**
- **Influencers**

ROADMAP

ROADMAP

PHASE 3

- **Marketing**
- **Game Release**
- **Android Game**
- **IOS Game**
- **Partnerships**
- **More CEX Listings**
- **Develop Caliverse**

PHASE 4

- **Land Sale for Caliverse**
- **Marketing**
- **Launch Caliverse**
- **More Partnerships**
- **Recruit Major Brands**
- **COONVI CEX**
- **COONVI Pad**
- **Top 100 CMC**

Ecosystem

Ecosystem

CoonVi aims to create a full-fledged ecosystem of various on-chain and off-chain components.

It incorporates many different features around A.

P2E games and native tokens \$Coon. acting as a utility token
In an impressive collection of digital art,
We propose different types of staking, governance, and web apps.

More planned, we aim to create vibrant, long-lasting products.

Regarding the game, we plan to use "play-first."

Fun is central to the experience, and encryption will, on the contrary, be used as a competitive tool to further engage the player.

From making money to "top priority" where the main attraction comes from making it.

By doing things this way, we will create a dedicated player base. Users who love and care about the game have a say in its future development.

\$Coon, Our Utility Token

Enjoy some of the best utility “CoonVi” has to offer with our multiple upcoming games, staking,

governance and a large array of partnered platforms.

Mint other projects at a discount, buy

raffle tickets or even use them to buy and sell NFTs on marketplaces.

A Total of 7,000 Card

In April 2022, 7,000 procedurally generated collections were released without a whitelist system.

From May 2022 to November 22, about 5,000 people followed. Each of the four collections represented a season.

Launched without the originally promised utility, we are trying to deliver a roadmap.

I have been trying for years and will continue to do so. We're trying to be a very important pillar of the CoonVi ecosystem.

P2E Surfing Game Coming Soon

LET'S GO!!!

Staking and P2E

Staking and P2E

\$Coon stake will be introduced in the near future.

Village Web App, which can provide revenue to your company
